Full-stack developer crafting ML/audio systems and self-hosted infrastructure.

EDUCATION

Bachelor of Technology in CSE

Model Institute of Engineering and Technology

Schooling (Class I – XII)

Air Force School, Jammu

Aug. 2023 – May 2027

Jammu and Kashmir, India

2011 – 2023

Jammu and Kashmir, India

TECHNICAL SKILLS

Languages: Python, C/C++, TypeScript, Go, Rust, SQL, Lua, Bash, PowerShell, QML, LaTeX

Frameworks & Platforms: SvelteKit, React, Next.js, Astro, Tailwind CSS, React Native, Expo, Bun, Node

Developer Tools: Git, Docker, CMake, CI/CD, Cloudflare, Vercel, Kubernetes, Terraform

Databases & Cloud: Convex, PostgreSQL, MySQL, AWS, [GCP](#)

Libraries: PyTorch, TensorFlow, Transformers, scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, Manim

Domains: Deep Learning, Audio Processing, Linux Servers, Full-Stack Development, Networking

EXPERIENCE

Cloud Lead

GDGoC (Google Developer Groups on Campus), MIET Jammu

Aug. 2025 – Present

Jammu and Kashmir, India

- Lead cloud learning initiatives by organizing hands-on workshops and guided sessions around **Google Cloud** services and developer tooling.
- Build and maintain a **tutorial platform** ([Live](#)/[GitHub](#)) containing lab walkthroughs, notes, and video resources to help students complete Study Jam skill badges efficiently.

Cloud and DevOps Lead

AWS Cloud Club MIET Jammu

Jan. 2026 – Present

Jammu and Kashmir, India

- Lead cloud and DevOps initiatives as part of the core team by mentoring students through workshops, collaborative projects, and technical sessions.
- Promote adoption of **AWS**, containerization, and infrastructure best practices across club activities with focus on deployment, automation, and scalability.

PROJECTS

U-Net Audio Filter

Audio enhancement by removing background noise | [GitHub](#)

Jul. 2025 – Present

- Current research project on audio enhancement using a **custom U-Net-inspired architecture** and end-to-end training pipeline for denoising and source separation.
- Developing the workflow with **Python, PyTorch, and audio DSP preprocessing**, including custom data handling, spectrogram-based modeling, and evaluation tooling.
- In development, but already achieving **around 15% improvement over open-source baselines on select metrics**, showing promising near-SOTA results in early experiments.

Homelab File Manager

Self-hosted file management system for Linux servers | [Live](#) | [GitHub](#)

Nov. 2025 – Present

- Built a **fast, lightweight** file manager for Linux servers using **Svelte** and **Go**, supporting multi-mount browsing, chunked transfers, and real-time file updates.
- Added support for **most media content** with live preview/streaming/download capabilities, plus **Monaco Editor** integration for viewing and editing text-based files directly in the browser.

Homelab Infrastructure

Self-hosted server for storage, remote access, and service deployment | [GitHub](#)

Oct. 2025 – Nov. 2025

- Built a personal homelab on repurposed hardware running **Ubuntu Server**, using **Docker Compose** for service orchestration, **Cloudflare Tunnel** for secure remote access, and **Traefik** for reverse proxying.
- This is where I host tools such as **ViDown** ([Live](#) / [GitHub](#)) and **AnyConverter** ([Live](#) / [GitHub](#)), which I use directly in my day-to-day workflow.
- Maintained a custom **CI/CD workflow** that tracks GitHub changes, pulls updates onto the server, syncs with self-hosted **Gitea**, and automatically redeploys services.

Automated Arch Linux dotfiles and installer for the Niri compositor | [GitHub](#)

- Built a reproducible **NiriWM** rice and automation setup with an installer that provisions packages, symlinks configs, copies assets, and enables desktop services on Arch Linux; it is currently my **most popular GitHub repository**.
- Extended the same Linux desktop workflow with companion tools including **WallPy-Gui** ([GitHub](#)), a wallpaper manager for Wayland compositors, and **iwd-applet** ([GitHub](#)), a tray applet for menu-driven wireless management through **iwd**.

Additional Projects

- **HowTo** — Astro tutorials site for practical hardware and software walkthroughs ([Live](#) | [GitHub](#))
- **Pico32** — C++/PlatformIO serial TUI for portable ESP32 Wi-Fi and Bluetooth pentesting workflows ([Website](#) | [GitHub](#))
- **TL;DR** — Electron desktop app that summarizes WhatsApp chats with OpenRouter-compatible AI models ([GitHub](#))
- **Community Leaderboard** — Next.js dashboard for event tracking, rankings, and community participation insights ([Live](#) | [GitHub](#))
- **Hotel Booking** — Svelte/Express/MySQL booking platform with authentication and admin workflows ([GitHub](#))
- **Tenant Manager** — React Native app for managing tenants and tracking electricity usage ([GitHub](#))
- **Terminal Doom** — Doom-inspired terminal game built with C++, ncurses, and CMake ([GitHub](#))

CERTIFICATIONS & PROGRAMS

Google Cybersecurity | [Certificate](#)

Cisco Cybersecurity Operations Fundamentals | [Certificate](#)

Nptel Ethical Hacking - IIT Kharagpur | [Certificate](#)

Nptel Deep Learning - IIT Ropar | [Certificate](#)

IBM SkillsBuild: AI Agent Architect | [Certificates](#)

IDE Bootcamp (AICTE / MoE) | [Certificate](#)

LEADERSHIP & ACTIVITIES

Team Leader

Internal Hackathon & Smart India Hackathon (SIH 2024 & 2025)

MIET, Jammu

- Led multidisciplinary teams for the college's internal hackathon and Smart India Hackathon selection rounds in both **2024** and **2025**.
- Reached the **top 9 teams in the college** in both years by driving collaborative problem-solving, rapid prototyping, and solution design for real-world challenges.

Team Leader

Feb. 2025

Innovation, Design, and Entrepreneurship (IDE) Bootcamp

IIT Jammu

- Participated in a 5-day immersive bootcamp organized by IIT Jammu in collaboration with the Wadhwani Foundation, AICTE, and MoE's Innovation Cell.
- Led a team in developing a "Sports Match Finder" app, applying principles of design thinking and the Lean Canvas model to address market needs.
- Engaged in hands-on activities and real-world case studies, gaining insights into business modeling, product design, and entrepreneurial strategies.
